[Journal of Causal Inference](#) (IF 2022: 1.867, 5-year IF: 4.446) is searching for experienced candidates for the position of **Editor-in-Chief.**

JCI is a fully peer-reviewed, **open access**, electronic-only journal publishing papers on theoretical and applied causal research across the range of academic disciplines that use quantitative tools to study causality. JCI was founded in 2013 and has been edited since then by **Kosuke Imai, Judea Pearl, Maya Liv Petersen, Mark J. van der Laan**, and other prominent experts in the field of causal inference. For a decade of its existence, the journal published 150 articles. The importance of causal inference and the popularity of JCI are continuously growing, and so is the number of submissions we receive.

If you are interested in joining our team and supporting the journal in its further development, please review the list of responsibilities below and send your CV, highlighting your experience in the field of causal inference, to the **Managing Editor** – Monika Maleszka, monika.maleszka@degruyter.com

Responsibilities:

- Preliminary assessment of the manuscripts submitted to JCI
- Cooperation with Editors on the peer-review process
- Suggesting candidates for the Editorial Board, new Special Issues, and other ideas on the journal development
- Discussing strategic issues with the Managing Editor
- Promoting the journal and inviting new authors
- Following the principles of publication ethics and De Gruyter policy

Application deadline: April 30, 2023

Editorial Office:
